

### **REMARKS**

Support for the 2000 molecular weight of the claimed polybutylene adipate is found in page 6, line 26.

The present amendment restricts the scope of the protection sought.

DE 3132760 (Werner) cited in the prosecution of the parent application disclosed kneading  $C_{18}H_{37}OH$  in a polyurethane based on butanediol-hexanediol-adipic acid polyester to improve the flow of the polyurethane.

As presently amended the claimed polyurethane is neither described nor suggested by Werner.

Entry of the Amendment and an early examination are requested.

Respectfully submitted,

By

Aron Preis
